# WE ARE CRAFTSMEN AND PROUD OF IT!

## **QUALITY PRODUCTS : 100% CRAFTSMANSHIP**

In order to ensure the production excellence of the sofas and armchairs, each Marie's Corner product is entirely handcrafted.

We can count on an internal team of 30 Master-Decorators who are able to produce up to 12.000 pieces each year.

## **EXCLUSIVE AND TAILOR-MADE**

Since each item is unique and personalized according to your needs, Marie's Corner choice only works based on offers, never from stock. All is made on request, either as unique piece or in a requested quantity.

Since they are the owner of their production material, Marie's Corner also can adapt itself to respond to any specific request.

## **PRODUCTION MADE IN EUROPE**

Indeed, the choice of the designs, of the tissues and the materials is entirely ensured in Belgium, the production is effected in Zaragoza.

Since many decades, this Spanish region is the cradle of the production of artisan production and can count on a unique know-how of its craftsmen to guarantee an optimal quality level.

## **COMFORT AND QUALITY**

From design to finished product, over the choice of raw materials, Marie's Corner is driven by one obsession only : to ensure the quality and the comfort of its accomplishments.

As such, to each armchair a label of authenticity is attached, certifying the quality of the product and the name of its craftsman for a full traceability.

# A UNIQUE KNOW-HOW TO ENSURE QUALITY

# CONTRACT: COMMERCIAL AND RESIDENTIAL PROJECTS

If you are responsible for the renovation of a top of the range hotel, the decoration of a restaurant, the set-up of a club-house or any other residential project, you can rely on the Belgian tailor-made sofa and armchair specialist.

As always, each piece is made by hand by specialized craftsmen and can be declined in a wide variety of finishing. On top of the constraints and norms of this sector, Marie's Corner proposes high-quality tissues adapted to any type of project: fire proof and stain proof treatment.

Marie's Corner also proposes a tailor-made creation service for any specific decoration request, such as a dining room bench or a unique breakfast corner.

Our "Archi Contract" goes one step further: our teams are at your disposal to integrate our furniture in your architectural plans, or even support you in the elaboration of the concerned plans.

# LEON STYNEN'S ICONIC CHAIR REEDITION

Collab. with Marie's Corner & Kvadraat

## ARCHITECT OF STRUCTURES

Emerging from the shadows of surfaces and taut lines envisioned by an 'architect of structures' LEON STYNEN, with a guardian of the temple: Els Decryse. It has appeared, preserved from years of cultural indecision.

This iconic chair was originally designed in 1953 to furnish the lounges and libraries that welcomed visitors and regular patrons of the gaming rooms at the Kursaal Casino in the "Queen of the Beaches." As such, it is now being reissued in its original form. It will seamlessly integrate into the renovated spaces, embodying the spirit of modernity instilled by Leon Stynen from the very first sketches of this prestigious venue for celebrations, art, and light.

Seventy years have given this seat a modernist and humanist clarity. Designed for the Kursaal Casino in Ostend, inaugurated in 1953, it meets today's standards of comfort and uniformity.

In 2024, it makes its revival at Marie's Corner, where the qualities of traditional wood craftsmanship are seamlessly combined with the modernity of refined and balanced lines. A natural harmony that balances a seat without the gestures of voyeuristic and already forgotten modernism.

## EXCLUSIVE COLLABORATION

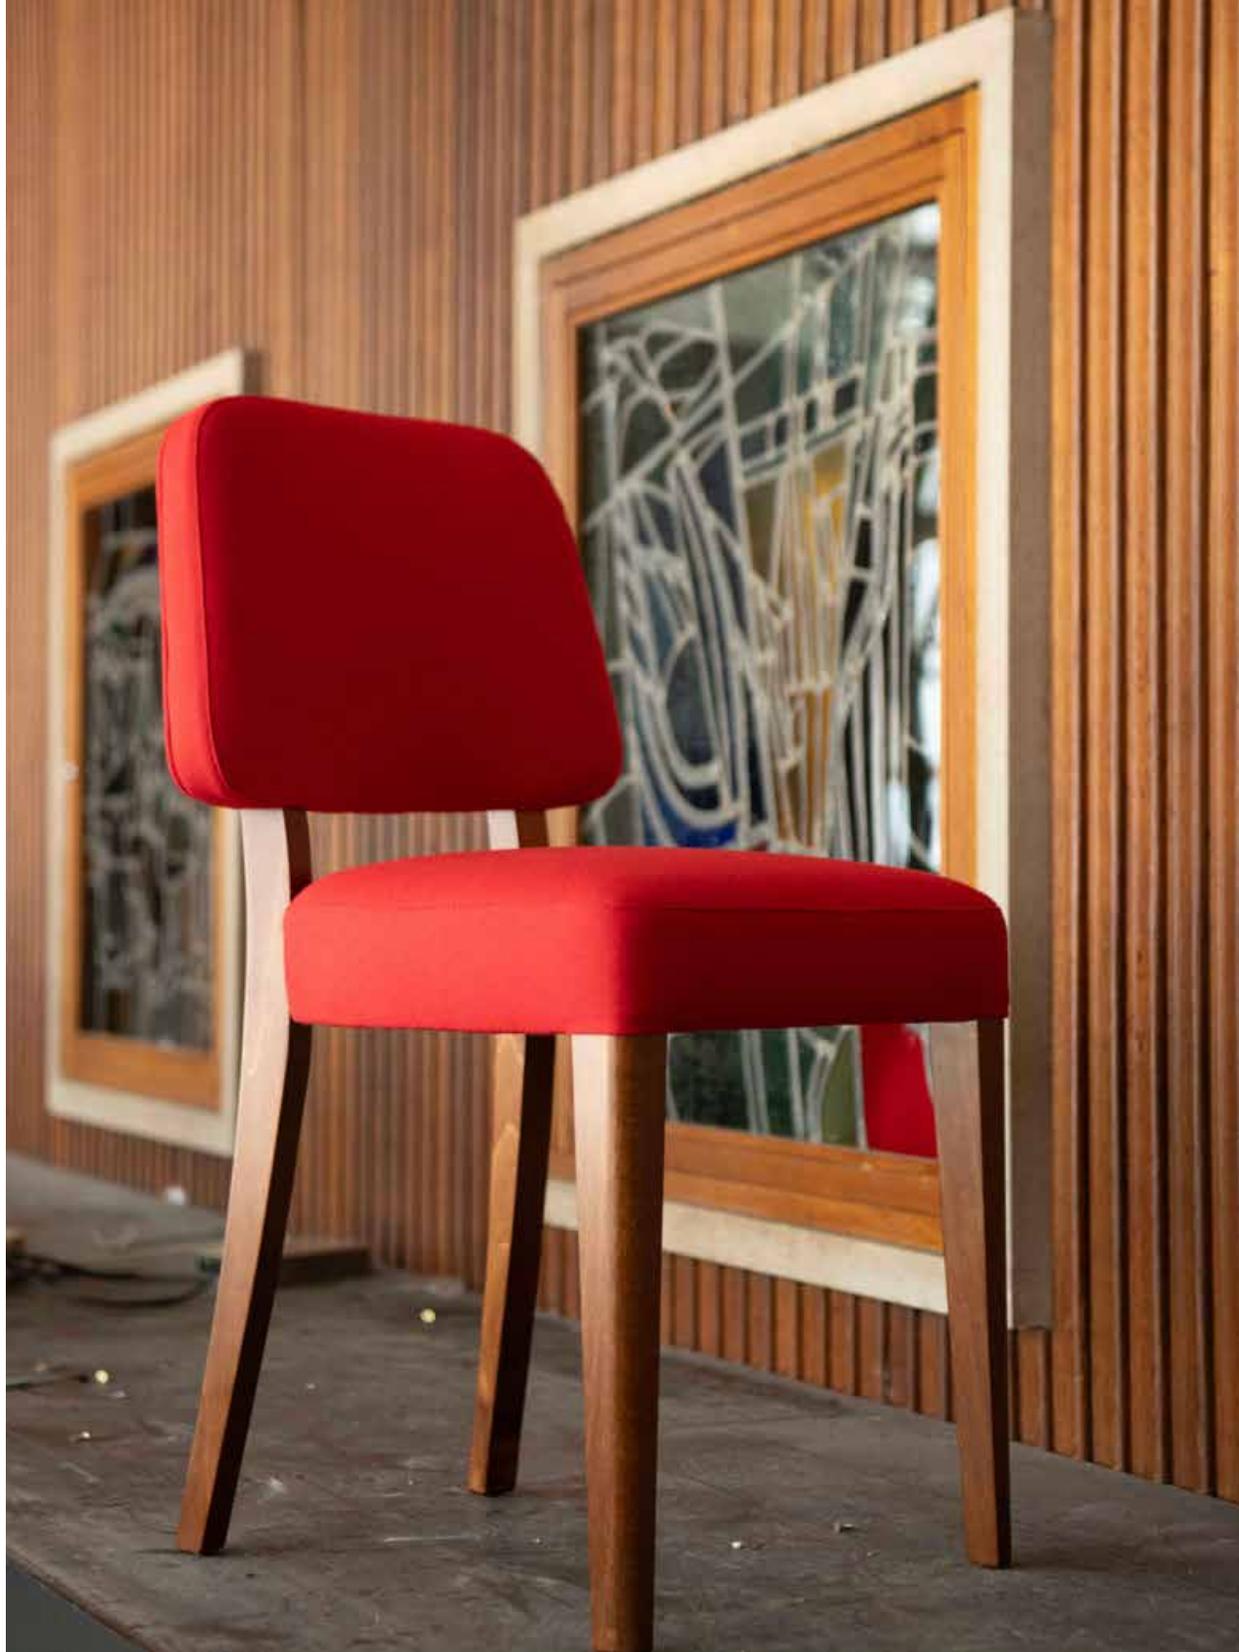

The KVADRAAT fabric range completes this adagio of bold modernism. KVADRAAT fabrics bring us from Denmark the most rigorous yarn structures, and the only ones that will ensure the perfect durability of stylistic tensions and colors over time. Today, we talk a lot about timelessness. This is precisely what you have here, thanks to the union of LEON STYNEN Architecte, Marie's Corner, and KVADRAAT.

## LEON STYNEN

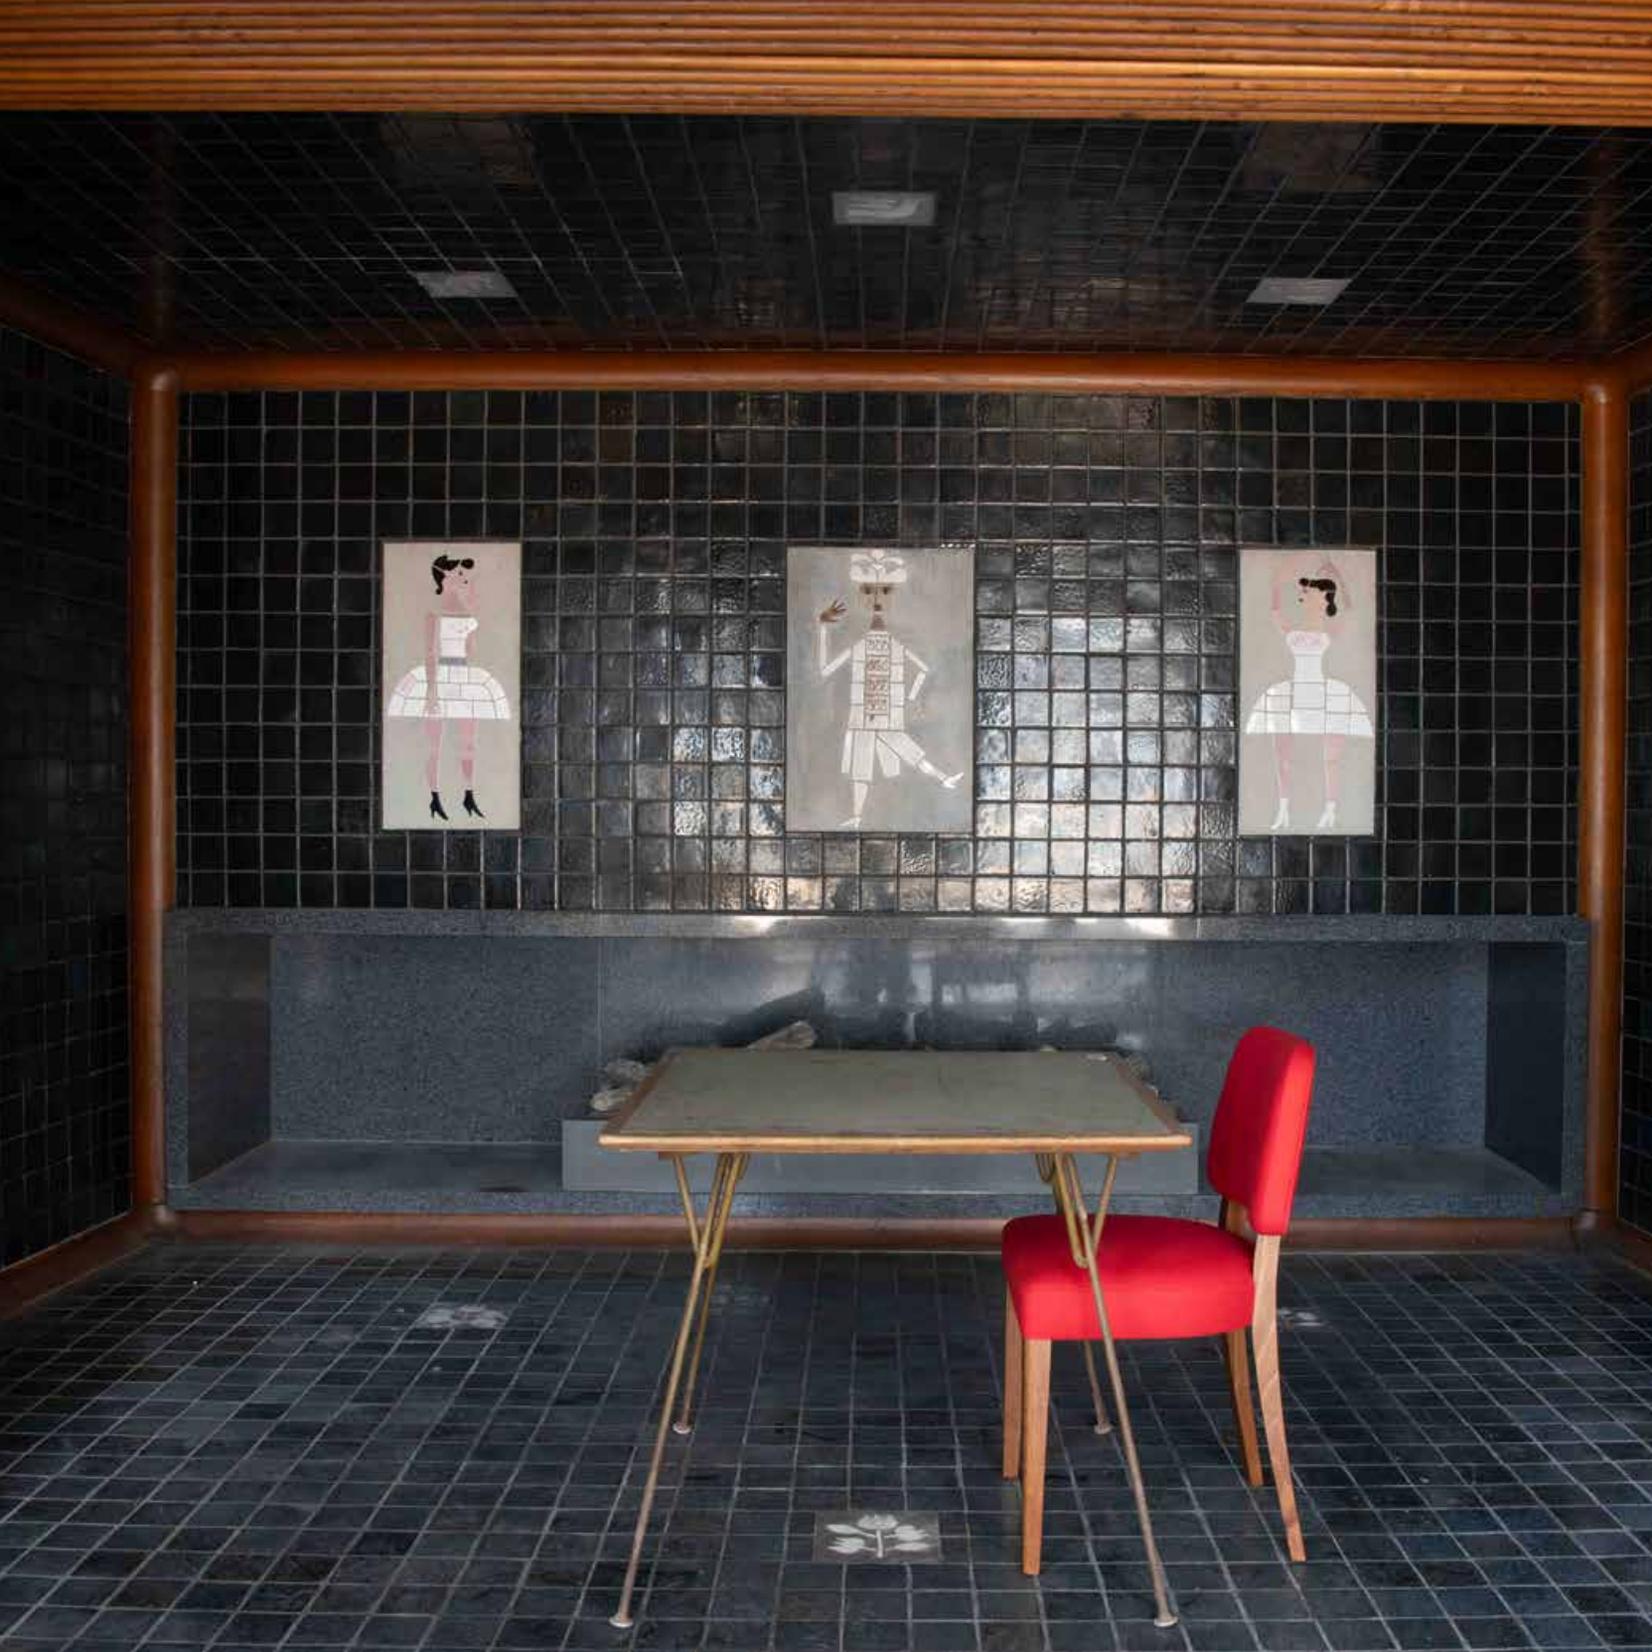

Leon Stynen was a prominent Belgian architect known for his significant contributions to modernist architecture in the mid-20th century. Born in 1899, he played a key role in shaping post-war architecture in Belgium, with a focus on functionalism and clean, geometric lines.

Stynen's notable works include the BP Building in Antwerp, the Kursaal Oostende and the Casino of Knokke, reflecting his commitment to integrating modern design with practical uses. He also served as director of the Royal Academy of Fine Arts in Antwerp, influencing a new generation of architects.

## RESIDENTIAL PROJECT

**BELGIUM** | Waterloo

Marie's Corner recently collaborated on a remarkable project in a private residence located in the south of Brussels.

The homeowners sought to give their classical-style home a modern refresh, opting to incorporate contemporary elements without losing the original charm. To achieve this, they selected a range of Marie's Corner seating and furniture, renowned for its elegant design and comfort.

The clean lines and refined aesthetics of the furniture perfectly contrasted with the home's traditional architecture, creating a unique blend of timeless and contemporary style.

From luxurious sofas to accent chairs, each piece was carefully chosen to enhance the living spaces, making them more inviting and functional. The soft, neutral tones of the upholstery brought a sense of serenity, while the bold design of the furniture added an artistic edge. In the formal sitting room, the sleek designs created a perfect balance between sophistication and comfort.

The open-plan layout of the home allowed the seating areas to flow naturally, creating cohesive and stylish environments.

The result is a stunning transformation where classic meets contemporary, all thanks to the exceptional versatility of Marie's Corner furniture.

The furniture includes sofas, armchairs, footstools, chairs and tables bearing the unique signature of the Belgian brand. Waterloo Golf Club is a family-friendly course that delights over 2,000 members in sumptuous green surroundings. The pieces commissioned include iconic models such as the Sonoma chair or the Virginia sofa, classic models such as the Jackson or the Carmel, but also novelties such as the Ashton armchair and the Trinity footstools.

"We also played with different materials: fabric, leather, buckle and tweed. It's varied, but designed in the same tone to create a coherent whole", explains Alain Friant.

The result is a soft, almost monochrome atmosphere, oscillating between greys and yellows, allowing to harmonize with the green of the golfcourse through the large windows.
